Bryant,

Per our conversation, see below. Don't worry about attachment B. HQ will put together a Spot Report based on the information we have (it'll be a separate report from the overall Harvey Reports that we have been doing) to go out some time this morning.

Hopefully you can identify someone on your end to provide this info some time this morning. If that isn't doable, let me know, and I'll see what I can do to manage expectations from here. I'm hopeful that if you can get a good CIIP together, we'll be able to help absorb some of the questions that might come your way instead.

Appreciate it.
